General Information

- All companies and planholders with existing agreements with Alaska Chadu Network remain in compliance and do not need to resubmit an enrollment agreement.
- Annual renewal is not necessary, as the Certificate of Coverage remains continuously valid from the date of issuance.
- Payment is due upon receipt of invoice and payable in U.S. dollars per terms of your category nomination.
- An annual confirmation of coverage notification will be sent out to obtain details on nomination details for the following year.
- Additional Invoicing information:
 - Facilities – Billed upon annual nomination, invoiced quarterly or annually for calendar year compliance.
 - Other – Railroad, Drilling, Trucking, Other – Billed upon annual nomination, invoiced annually for calendar year compliance.

Key Definitions

Capacity: The total maximum amount of oil or refined products that can be stored in either fuel tanks or cargo tanks in a Facility or other regulated operation. The Capacity is reported for each Facility or other regulated operation seeking oil spill compliance coverage.

Facility: An oil terminal or storage facility that stores oil or refined products in bulk for commercial or on-site consumption that requires oil spill compliance.

- **Inland or River**: A facility that would not need marine assets to address an oil spill from its tanks.
- **Shoreside Marine**: A facility that would need marine assets to address an oil spill from its tanks that could impact tidally influenced or marine waters.

Capacity Guidelines:

- **Facility**: Total capacity per facility.
- **Not-For-Profit, Public Sector facility**: Total capacity per ADEC sub-region.

Other Operation: A regulated entity that requires state and/or federal oil spill compliance that is not a Facility or Vessel.

- **Railroad**: A company that operates a railroad that carries fuel or oil cargo in bulk.
- **Drilling**: A company that explores or drills for oil or gas that requires oil spill compliance.
- **Trucking**: Operations that include trucks or trailers that move oil or refined oil in bulk as cargo.
- **Other**: Any other operation that requires state and/or federal oil spill response coverage to conduct operations.
