Dear Mr. Custard:

Re: Response Action Contractor Registration

The application for renewal of registration as an oil spill primary response action contractor in the name of Alaska Chadux Network for the Prince William Sound, Cook Inlet, Kodiak Island, Aleutian Islands, Bristol Bay, Western Alaska, Northwest Arctic, North Slope, and Interior Alaska regions of the State of Alaska has been approved by the Department in accordance with Alaska Statute 46.04.035 and Regulations at 18 AAC 75, Article 5.

This registration is approved through May 15, 2023. A new registration certificate is enclosed.

Note the annual reporting requirements under AS 46.04.035(f) and 18 AAC 75.560(c). The next annual report will be due until January 31, 2021.

Approval of this registration does not constitute approval of a response capability in support of an operator's oil discharge prevention and contingency plan (plan). The operator's response capability provided for in a plan is evaluated separately, on its own merit, and this response capability may include the services and resources of a response action contractor.

If you have any questions concerning this approval, please contact me at the above number.
Sincerely,
