

► 2024 Facility Fee Schedule

Member Fee Schedule

Coverage Type	Coverage Rate	Invoiced	Minimum Fee
Facility	\$0.34/bbl	Calendar Year Coverage	\$1,500
Other - Railroad, Drilling, Trucking, Other	\$0.34/bbl	Calendar Year Coverage	\$1,500

General Information

- All members with existing agreements with Alaska Chaduê Network remain in compliance and do not need to resubmit an enrollment agreement. The Certificate of Coverage remains continuously valid from the date of issuance.
- Payment is due upon receipt of invoice and payable in U.S. dollars per terms of your category nomination. There is no prorating of services.
- Facilities – Billed upon annual nomination for calendar year compliance. Members with Facilities may request to pay in quarterly installments, which do not equate to separate compliance coverage terms. All quarterly installment payments are applied to the total annual invoiced dollar amount, as nominated by the member.
- Other – Railroad, Drilling, Trucking, Other – Billed upon annual nomination, invoiced annually for calendar year compliance.
- Members are required to pay the full balance due for their annual compliance coverage for the current year, per their annual nomination.
- Alaska Chaduê Network Members will receive preferred response rates!
- An annual confirmation of coverage notification will be sent out to obtain details on nomination details for the following year.

Key Definitions

Total Oil Capacity: The total maximum amount of oil or refined products that can be stored in either fuel tanks or cargo tanks in a Facility or other regulated operation. The Capacity is reported for each Facility or other regulated operation seeking oil spill compliance coverage.

Facility: An oil terminal or storage facility that stores oil or refined products in bulk for commercial or on-site consumption that requires oil spill compliance.

Other Operation: A regulated entity that requires state and/or federal oil spill compliance that is not a Facility or Vessel.

- **Railroad:** A company that operates a railroad that carries fuel or oil cargo in bulk.
- **Drilling:** A company that explores or drills for oil or gas that requires oil spill compliance.
- **Trucking:** Operations that include trucks or trailers that move oil or refine oil in bulk as cargo.
- **Other:** Any other operation that requires state and/or federal oil spill response coverage to conduct operations.
