Dear Mr. Nathan Hatfield:

**Re: Response Action Contractor Registration**

\*Certificate amended 5/16/2023 for applicant name listing

The application for registration as an oil spill primary response action contractor in the name of Alaska Chadux Network for the State of Alaska has been approved by the Department in accordance with Alaska Statute 46.04.035 and Regulations at 18 AAC 75, Article 5.

This registration is approved through May 15, 2026. A new registration certificate is enclosed.

Note the annual reporting requirements under AS 46.04.035(f) and 18 AAC 75.560(c). The next annual report will be due until January 31, 2024.

Approval of this registration does not constitute approval of a response capability in support of an operator's oil discharge prevention and contingency plan (plan). The operator's response capability provided for in a plan is evaluated separately, on its own merit, and this response capability may include the services and resources of a response action contractor.

While PRAC applications allow for incorporation of previous application by reference in sections C-G in practice DEC typically limits this for one renewal period. In the 2026 planning you want to add time for section C-G preparations.

If you have any questions concerning this approval, please contact me at the above number.

Sincerely,
