Anchorage, AK 99507

Dear Mr. Green,

Your request for a change to your company name in the Response Resource Inventory (RRI) and application for classification as an Oil Spill Removal Organization (OSRO) has been reviewed and processed as outlined in the Coast Guard OSRO Classification Guidelines dated June 2019. You have retained OSRO classification number 93; please use this number in all future correspondence to this office.

You are responsible for informing both this office and your clients of any changes to your status. If there are changes to your equipment or sites, please make those changes in the RRI database, which can be accessed at <https://cgrri.uscg.mil>. Your classifications will be listed and maintained in the OSRO Classification Matrix, which is available for review at <https://cgrri.uscg.mil/rriadmin/reports/webclassificationreport.aspx>.

If you have any questions or would like more information regarding your classifications, please contact the NSFCC using the contact information found in enclosure (1).

Thank you for your participation in the OSRO Classification program.

Sincerely,

A handwritten signature in blue ink, appearing to read "T. B. Hutley".

T. B. Hutley  
Captain, U. S. Coast Guard
