Dear Mr. Vreeland:

Re: Response Action Contractor Registration

The application for registration amendment for existing oil spill primary response action registration in the name of Alaska Chadux Network for the State of Alaska has been approved by the Department of Environmental Conservation in accordance with Alaska Statute 46.04.035 and Regulations at 18 AAC 75, Article 5.

The registration expiry of May 15, 2026 remains unchanged. An amended registration certificate is enclosed that marks the new region addition- Southeast Alaska.

Note the annual reporting requirements under AS 46.04.035(f) and 18 AAC 75.560(c). The next annual report will be due until January 31, 2025.

Approval of this registration does not constitute approval of a response capability in support of an operator's oil discharge prevention and contingency plan (plan). The operator's response capability provided for in a plan is evaluated separately, on its own merit, and this response capability may include the services and resources of a response action contractor.

If you have any questions concerning this approval, please contact me at the above number.
Sincerely,

Shauna McMahon
